

REMARKS

The above amendments are supported by the application, claims and drawings as filed in the parent applications, and therefore do not constitute new matter.

It is requested that this CPA application be placed in the file wrapper of the parent application, and that since there has been no change in inventorship, that the declarations of the parent applications be associated with this CPA.

It is further requested that, since this CPA application will be placed in the file wrapper of the parent application, that the IDS references and references previously cited by Examiner be included and considered in the prosecution of this CPA.

It is further requested that the Power of Attorney from the parent application be included in the prosecution of this CPA.

Entry of the amendments, and examination, consideration, and allowance of this continuation application are requested.

Respectfully submitted,

Donald W. Margolis, Reg. No. 22,045
